# Solo Kayaks

ARCTICWATERSPORT.FI

"Speedy and comfortable touring kayaks made for demanding paddlers."

# Double & Triple Kayaks

ARCTICWATERSPORT.FI

"Stable double kayaks for lake and sea areas. Narrow rounded deck makes paddling easy for all size paddlers."

# Open Canoes

ARCTICWATERSPORT.FI

"Explore effortlessly rivers and lakes with our agile, stable and easy to handle open canoes."

# Isla 171 / Isla LV

ARCTICWATERSPORT.FI

<b>Lenght</b>	<b>521 cm</b>	<b>ft</b>
<b>Width</b>	<b>54 cm</b>	<b>in</b>
<b>Weight</b>	<b>LV - 26 kg</b> <b>171 - 26,5 kg</b>	<b>lbs</b>
<b>Material</b>	<b>Superlinear PE</b>	

The Most Anticipated New Arrival of the 2025 Season is Here – Meet the Isla!

The Isla is crafted for paddlers who want a kayak that glides effortlessly and remains stable and responsive in waves — whether you're exploring lakes or sea.

Despite being exceptionally narrow for a polyethylene kayak, the Isla is accessible even for ambitious beginners who value investing in a premium, Finnish-made kayak.

Its hull design blends V- and U-shapes with softened chines, a long waterline, and just the right amount of rocker. The widest point sits just behind the paddler, delivering a balance of speed, control, and comfort.

Ergonomics you'll feel with every stroke

The front deck height is optimized to encourage a proper paddling posture while allowing full torso rotation. High braces offer solid contact, giving you the confidence to edge or roll with ease.

Premium outfitting — no compromises:

24 cm KS round rubber hatch (front), Spacious KS Daybox 15 cm day hatch (in front of paddler), KS 20 cm day hatch (behind paddler), KS 44/26 oval rubber hatch (rear), KS 4 adjustable skeg, KS adjustable footrests, Deck rigging with reflectives, Adjustable backrest, Breathable comfort seat, Adjustable hip pads, Innovative wave shedding paddle holder. Made in Finland.

Find your perfect fit:

Isla LV: ideal for paddlers 152–180 cm tall, 55–90 kg, max load ~130 kg

Isla 171: ideal for paddlers 165–200 cm tall, 70–110 kg, max load ~150 kg

# Sirocco

ARCTICWATERSPORT.FI

<b>Lenght</b>	<b>513 cm</b>	<b>16'10" ft</b>
<b>Width</b>	<b>58 cm</b>	<b>23" in</b>
<b>Weight</b>	<b>27 kg</b>	<b>60 lbs</b>
<b>Material</b>	<b>Superlinear PE</b>	

## Popular Sirocco – A Versatile and User-Friendly Kayak

The popular Sirocco is a versatile and user-friendly kayak designed to deliver performance for paddlers of various skill levels. It has been designed by the one of the know and respected kayak designers – Derek Hutchinson.

### Key Features:

Optimal paddler weigh approx. 84-125kg

Capacity: Maximum load 170 kg (375 lbs)

Maneuverability: Equipped with an adjustable skeg to enhance directional stability in different conditions

Storage: Three watertight compartments – bow, stern, and day hatches – providing ample space for gear, even on longer trips.

The Sirocco is known for its excellent control and stability in waves and crosswinds. Its wider stern (Swede form) and soft chine improve the paddling experience and make the kayak easy to handle.

Paddlers appreciate the Sirocco's stability and performance across various conditions. It is best suited for medium to larger paddlers.

Summary: The legendary Sirocco is a durable and versatile kayak, ideal for both beginners and experienced paddlers. Its design and features make it an excellent choice for those seeking a reliable and high-performance kayak for a variety of paddling adventures.

As optional accessories possibility to fit the KS Daybox, placed in front of the paddler.

For the 2025 season, production of the updated Sirocco has moved to Finland under Arctic Watersport!

# Squamish

ARCTICWATERSPORT.FI

The Squamish combines the best of North American and British kayak design. The kayak's smooth V-shaped hull provides excellent initial stability and is equipped with an adjustable fin for added stability and control in varying conditions.

Functional equipment at a reasonable price

The Squamish is fully equipped: deck ropes, recessed attachment points and carrying handles are standard. Made in Finland, Kajak Sport's high-quality rubber hatches keep your equipment dry and the larger rear hatch makes it easier to pack larger items for trips.

Designed for small paddlers

The Squamish stands out from kayaks in its size class precisely because of its ergonomics and fit. The low-profile cockpit, narrow seat and (in the Expedition version) low thigh supports make it the perfect choice for small and medium paddlers who value lightness and control.

<b>Lenght</b>	<b>479 cm</b>	
<b>Width</b>	<b>58 cm</b>	
<b>Weight</b>	<b>24 kg</b>	
<b>Material</b>	<b>Superlinear PE</b>	

The Squamish is an ideal choice for day trips or overnight trips, and it also works great on longer trips when the equipment can be shared. A versatile and reliable choice for the paddler who wants performance without compromise.

The perfect first kayak – or the perfect choice for an experienced day tripper

The Arctic Watersport Squamish is a great first kayak – but don't just classify it as a beginner model. If you're a small person, this could be the first kayak that really feels like yours. And for day trips, it could be the boat you choose again and again, while your "real" sea kayak waits in the garage for the next long trip.

Optimum paddler weight range: approx. 45-80kg, Optimum max. total load 112kg, Seat opening dimensions: 85x47cm.

Squamish is manufactured in three different versions:

**Basic:** Kayak with 2 bulkhead cargo compartments equipped with rubber hatches, deck rigging, notched footrests and lumbar support, the model is well suited for rental companies, tighter budgets and training use when looking for a higher quality basic kayak

**Standard:** Kayak with 2 bulkhead cargo compartments equipped with rubber hatches, deck rigging, adjustable footrests, lumbar support, adjustable fin

**Expedition:** Kayak with the same level of equipment as the Standard version, but with additional padded thigh supports.

# Pideraq LV

ARCTICWATERSPORT.FI

**”Effortless touring for XS to M -size paddler.”**

Lenght	502cm	16.5 ft
Width	53 cm	21 in
Weight	23 kg	50 lbs
Material	Superlinear PE	
Optimum paddler weight 40-85kg		

Pideraq LV is developed stage after stage by Finnish paddlers to improve its manouverability even better and to create a better easy going kayak for small and medium size paddlers. This elegant kayak is designed specially for XS-M paddlers, capacity 40-100 kg.

Expedition version: bulkheads, retractable skeg, 24cm round rubber hatch in front, 46cm oval rubber hatch rear, deckropes, footrests, backrest.

# Proton

ARCTICWATERSPORT.FI

**Allrounder**

Lenght	462 cm	15.2 ft
Width	59 cm	23,2 in
Weight	24 kg	53 lbs
Material	Superlinear PE	

Proton equipped with good paddling properties, is well suited for river and lake trips, as well as coastal sea due to its dimensions. The kayak is a stable and easy-to-maneuver. It is well suited for paddlers who are in the beginning stages of their paddling career. The XL-size cockpit makes getting in and out of the kayak effortless.

Good storage spaces enable overnight trips and longer weekend trips. The kayak is suitable for M-XL size paddlers.

# Tomahawk 13

ARCTICWATERSPORT.FI

**Allrounder in  
small package**

<b>Lenght</b>	<b>394 cm</b>	<b>13 ft</b>
<b>Width</b>	<b>67 cm</b>	<b>26.4 in</b>
<b>Weight</b>	<b>21 kg</b>	<b>46 lbs</b>
<b>Material</b>	<b>2-Layer PE</b>	

Tomahawk 13 is a pleasure to cruise rivers and paddle lakes or coastal waters. As stable as it is you can take along your photography equipment, fishing gear, kid or a dog and still feeling comfy. Tomahawk is a true touring kayak that tracks straight, handles well in crosswind. With a little effort you can paddle along with 16 footer kayaks. The lower design on the deck combined with comfy chair and adjustable footrests guarantee you have pleasurable paddling experiences for years to come.

# Sea Struer / Sea Struer S

ARCTICWATERSPORT.FI

**Responsive sea kayak  
that truly loves the waves**

<b>Lenght</b>	Sea Struer S - 498 cm Sea Stuer - 525 cm	Sea Struer S: Paddler size 50-85kg
<b>Width</b>	Sea Struer S - 53 cm Sea Stuer - 53,5 cm	Sea Struer: Paddler size: 75-105kg
<b>Weight &amp; material</b>	Sea Struer S - Weight: Std. Glass/Diolen/Carbon/Kevlar Hybrid infusion 19,5kg Sea Struer - Std. Glass/Diolen/Carbon/Kevlar Hybrid infusion 20,5kg	

The Sea Struer is an excellent boat. A really nice blend of everything, it's quick, playful, and incredibly responsive, but it can also carry a fair bit of kit when needed for a few-day getaway. If you want one boat to do it all, it's a hard one to beat.

The name Sea Struer comes in tribute to its original designer and the famous kayak-building town of Struer in Denmark, where the most eye-catching mahogany racing kayaks were made.

Under Arctic Watersport, the model has been updated to meet the standards of today's demanding sea kayakers. Built from the best materials with high-tech infusion construction, it is both durable and lightweight. The Sea Struer is a responsive sea kayak that truly loves the waves.

# Bigfoot #1

ARCTICWATERSPORT.FI

**Roomy cruiser for demanding paddler.**

<b>Lenght</b>	<b>534 cm</b>	<b>17.5 ft</b>
<b>Width</b>	<b>57 cm</b>	<b>22.4 in</b>
<b>Weight</b>	<b>25 kg</b>	<b>55.1 lbs</b>
<b>Material</b>	<b>ABS</b>	

BigFoot #1 is for paddlers seeking good access into cockpit and room for their feet but still well performing kayak in the most demanding conditions. BigFoot has low back deck which gives paddler great position for eskimo rolls and for lower wind effect. The slightly V-shaped hull has been designed to be very stabile.

We have found hull design that has almost zero weather cocking and excellent cruising speed. Expedition version has two oval hatches, back and front day hatch, deck fittings, deck ropes, footrest and backrest as standard. Capacity 60-140kg. Bigfoot #1 is made from special ABS-plastic that gives feather like weight and it has the look of composite kayak with better durability when hitting the rocks on the shore. This boat has also proven itself to be excellent kayak for guides/coaches that need controllable kayak with good durability for teaching rescue technics.

# Bigfoot #2

ARCTICWATERSPORT.FI

**Fast expedition seakayak for extended trips.**

<b>Lenght</b>	<b>555 cm</b>	<b>18.2 ft</b>
<b>Width</b>	<b>57 cm</b>	<b>22.4 in</b>
<b>Weight</b>	<b>25 / 22 kg</b>	<b>55 / 46 lbs</b>
<b>Material</b>	<b>Fibreglass / Diolen Carbon / Kevlar</b>	

Slightly V-shaped hull of Bigfoot #2 gives the boat excellent control and provides a confident ride in wide range of conditions. This kayak can be easily leaned over the cockpit rim still feeling comfortable and safe. Boat has great balance between load carrying, speed and seaworthiness with modern design and room for even a bigger paddler.

# Barents LV

ARCTICWATERSPORT.FI

Lenght	485 cm	15.9 ft
Width	53 cm	21 in
Weight	20 kg	44 lbs
Material	Fibreglass / Diolen	

Effortless touring for S to M -size paddler.

**Barents LV**, small to mid-size paddler touring/seakayak that ticks all the boxes for most nowadays paddlers needs. Compact size, narrow hull, low volume, light weight combined with effortless touring. Optimum paddler weight: 45-85kg

# Pohjantähti

ARCTICWATERSPORT.FI

Lenght	529 cm	
Width	52 cm	
Weight	24 kg	
Material	Glass/Diolen	

A high-quality and durable sea kayak made entirely in Finland. The Pohjantähti combines agility, speed and lightness. Equipment: adjustable skeg, hatches, adjustable footrests.

# Bambu 13.5

ARCTICWATERSPORT.FI

True performance kayak  
built just for kids!

Lenght	400 cm	13.1 ft
Width	51 cm	20 in
Weight	16 kg	35.2 lbs
Material	Fibreglass / Diolen	
Optimum paddler weight: 40-60kg		

Bambu is easy, fast and responsive performance-oriented kayak that has designed specially for kids. All the details have been carefully made with smaller paddler on mind. Hard chine for excellent stability and predictable feel when edging to carve a turn.

Slightly rockered hull and long waterline helps control on the waves and keeping side by side pace with adults. Bambu is fully fitted with touring details like front and rear hatches plus easy access dayhatch in front of the paddler. Bambu has easy to adjust foot braces, adjustable backrest, integrated performance kneebraces.

# Bambu 12.5

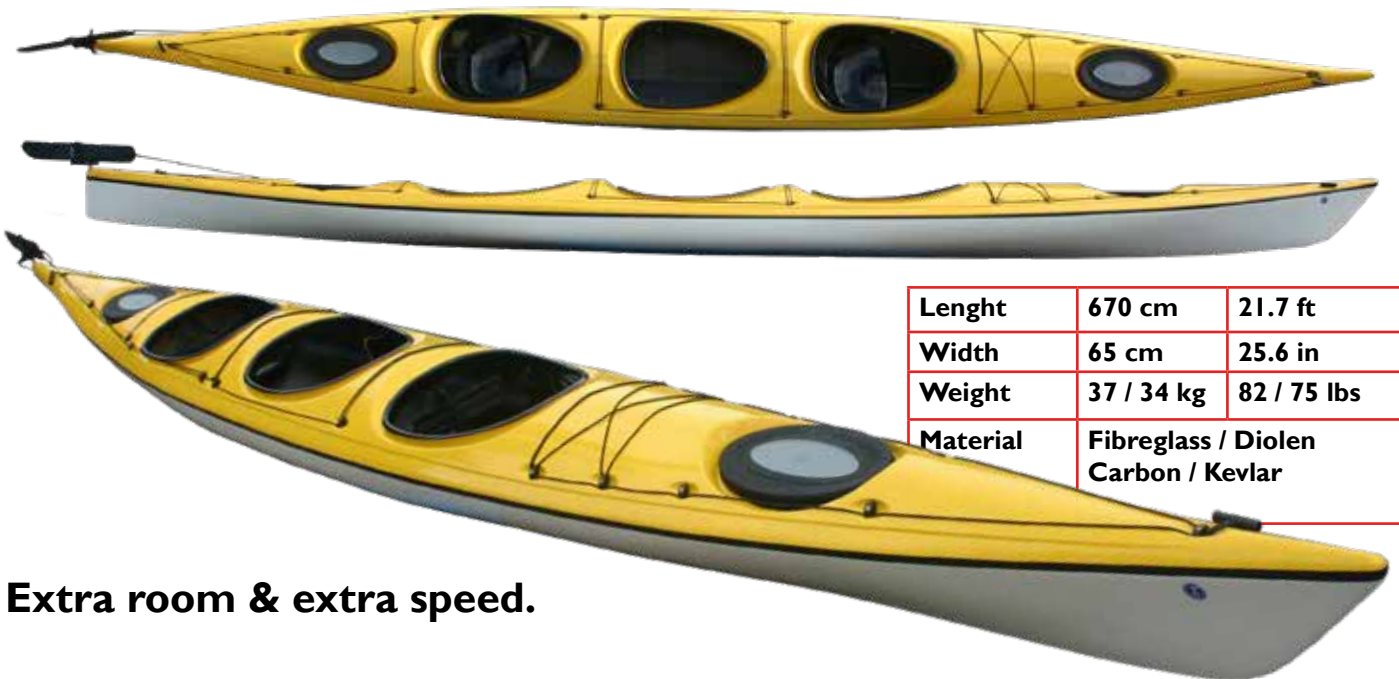

ARCTICWATERSPORT.FI

Lenght	377 cm	12.3 ft
Width	50,5 cm	20 in
Weight	15 kg	33 lbs
Material	Fibreglass / Diolen	
Optimum paddler weight: 15-57kg		

# Star Triple

ARCTICWATERSPORT.FI

Lenght	670 cm	21.7 ft
Width	65 cm	25.6 in
Weight	37 / 34 kg	82 / 75 lbs
Material	Fibreglass / Diolen Carbon / Kevlar	

## Extra room & extra speed.

StarTriple is designed on the base of the test winner Star630. It is for paddlers who need extra room in middle cockpit for third person, pet or large gear. Long waterline and moderate rocker combined with well performing rudder gives great cruising speed and good maneuverability. This kayak is also ideally suited to paddlers with mixed abilities or families with young children that are seeking well performing and reliable kayak.

# Star Duo PE

ARCTICWATERSPORT.FI

Lenght	530 cm	17 ft
Width	65 cm	25.6 in
Weight	36 kg	77 lbs
Material	Superlinear PE	

## Rugged cruiser for two.

Star Duo is solution for most of people that want go kayaking together.

Private people as well as rental places and extreme competition organizers have wished well equipped larger, faster and easier going model double kayak that is durable, reliable from relaxed sunny paddling to rough conditions. The solution is Star Duo. Designed based of test winner Star 630 sibling.

STAR DUO hulls are rotomoulded and assembled in Finland.

Expedition version has bulkheads, decklines, hatches and rudder.

Well balanced Star Duo exceeds most of the double kayak paddlers needs but also works as easy going kayak on occasional single kayaking and when adult wants to spend luxury time with kid.

# Star 630 Nova

ARCTICWATERSPORT.FI

**“Best Double Kayak  
in Germany”**

<b>Lenght</b>	<b>630 cm</b>	<b>20.7 ft</b>
<b>Width</b>	<b>62 cm</b>	<b>24.4 in</b>
<b>Weight</b>	<b>36 / 33 kg</b>	<b>79 / 72 lbs</b>
<b>Material</b>	<b>Fibreglass / Diolen Carbon / Kevlar</b>	

Fastest and most easy driven sea kayak double in Nordic market.

Star 630 Nova has been designed to be safe and stable enough also for the beginners. The speedy hull suits for long trips at sea and for exercise paddling. With Star 630 you can paddle alone or with small child. You are not the last arriving to the destination.

Listening the customers we have made tweaks like making slightly bigger and ergonomit cockpits, adding day boxes for both paddlers. Tweaking the expedition proven hull even better.

The cockpits are placed sufficiently apart, allowing the paddlers to paddle at their own rythm without risk of hitting each others paddles. Because of easy manouverability and low and narrow hull the kayak is also excellent in rought weather. Rear cockpit is really back and it's easy to handle in hard back surf. Advanced paddlers have told they have got their best surfs ever in Star 630 Nova double.

# Upper Canada 17

ARCTICWATERSPORT.FI

<b>Lenght</b>	<b>510 cm</b>	
<b>Width</b>	<b>94 cm</b>	
<b>Weight</b>	<b>39,5 kg</b>	
<b>Material</b>	<b>3-layer Superlinear PE</b>	

Upper Canada 17 is built with 3-layer construction method. This polyethylene construction offers an extremely durable canoe at an excellent price. It is built with a super-tough superlinear high density plastic with special foam core throughout the hull.

Fishermen and sportsman will appreciate the ruggedness and surprising capacity. Families will also feel at home with this new canoe that feels exceptionally stable, paddles easily yet still responds quickly to your paddle stroke. This well-behaved canoe feels especially solid when the going gets rough. Vinyl gunwales, webbed seats, ash toggles and yoke come as standard with this canoe.

# Kolibri

ARCTICWATERSPORT.FI

True Jack of All Trades

<b>Length</b>	<b>412 cm</b>	<b>13.6 ft</b>
<b>Width</b>	<b>76 cm</b>	<b>30 in</b>
<b>Weight</b>	<b>20-22 kg</b>	<b>44-48 lbs</b>
<b>Material</b>	<b>Glass/Diolen/Basalt hybrid</b>	

Glass/Diolen/Basalt hybrid

Comments on Kolibri from most experienced Finnish

Open Canoe Paddlers surprised us. For it's length and stability the boat is still quite fast yet easy to turn. The boat handles with additional airfloats on class 2+ WW. Kolibri is at home on Finnish lakes and mild rivers with about class I-WW and it is suitable even for beginners.

# Kolibri XL

ARCTICWATERSPORT.FI

Solo — Double

<b>Length</b>	<b>470 cm</b>	<b>15.4 ft</b>
<b>Width</b>	<b>83 cm</b>	<b>32.6 in</b>
<b>Weight</b>	<b>26 kg</b>	<b>57 lbs</b>
<b>Material</b>	<b>Glass/Diolen/Basalt hybrid</b>	

With economic wetted surface Kolibri XL behaves well both as solo & double. For easy balance adjustment the front seat is sliding and it is perfect tool also for solo paddling. You just sit on front seat and slide it close to the middle for perfect position. Kolibri XL has several material and trim options.

# Upper Canada 16

ARCTICWATERSPORT.FI

Lightweight yet tough.

Lenght	485 cm	15.9 ft
Width	88 cm	34.6 in
Weight	36 kg	75 lbs
Material	PE Sandwich	

Incredibly versatile all rounder Upper Canada 16 is agile, stable and easy to handle canoe that allows you explore rivers and lakes. The boat keeps being very stable even when hitting bigger waves. The special grade 3-layer sandwich polyethylene construction makes it unsinkable canoe with very stiff and durable hull that weights only 36 kg. Capacity 320 kg.

# Prospect 16.5

ARCTICWATERSPORT.FI

## All round touring

Prospect does well on the river and whitewater but does not scare occasional open waters trips.

Lenght	494 cm	16.2 ft
Width	37 cm	35.4 in
Weight	37 kg	81.5 lbs
Material	PE Sandwich	

With Prospect you can expect a dry boat with predictable behavior in moving water. Prospect has plenty of capacity in as short and maneuverable package that works well also for family fun and has also performance for occasional solo paddling.

# Kayaks & canoes

ARCTICWATERSPORT.FI

Arctic Watersport Oy – Expertise in Kayak & Canoe Manufacturing

At Arctic Watersport, we bring decades of experience in producing composite, rotomoulded polyethylene, and vacuum-formed products. We take pride making kayaks and canoes manufacturing in our own factory, with additional fittings supplied by trusted local partners.

Designing and building kayaks and canoes is no simple task — watertight bulkheads, durable skegs and rudders, and reliable fittings all demand precision. Our long experience as both a manufacturer and an importer of world-renowned brands gives us deep insight into what works, what doesn't, and how to deliver products that exceed today's paddlers' expectations.

In addition to our own models, we also offer subcontracted rotomoulding services. If you're looking for a reliable partner to produce larger rotomoulded parts, we'd be happy to help.

We don't sell directly to private customers, but our team will gladly connect you with your nearest dealer for full service and support.

Sustainability at our core

Nature is at the heart of everything we do. Since the beginning, we've made recycling an essential part of our production. Our in-house recycling line granulates and pulverizes polyethylene waste, which we reuse for other products such as composters and water tanks — ensuring nothing goes to waste.
